Content

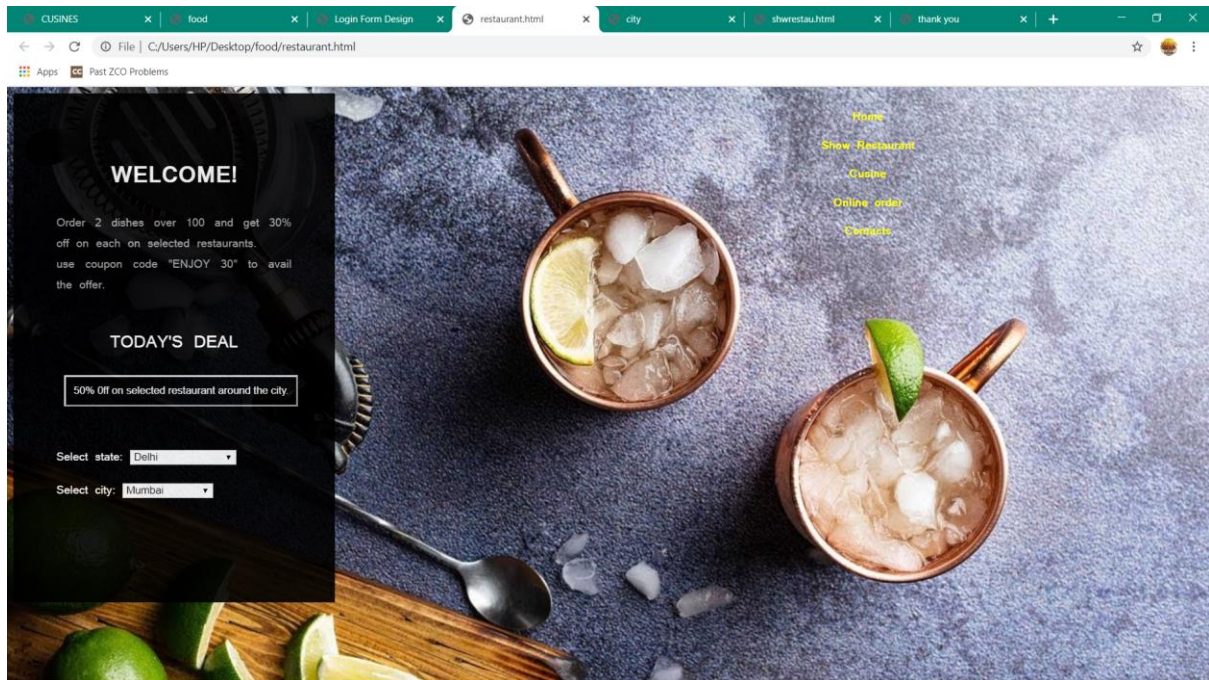

1. Login Page
2. Home Page
3. Today's Deal

Login page

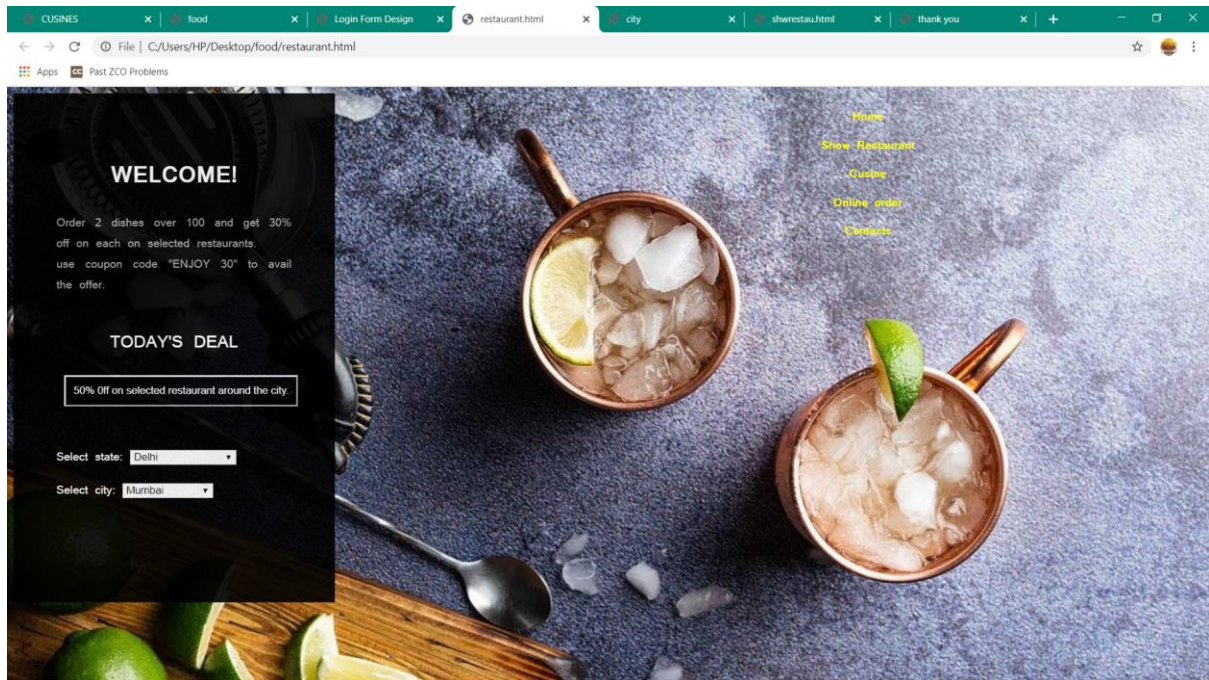

- ❖ This is the first page of the website which allows us to enter through the portal and came at once at the login page.
- ❖ Here we have many options regarding the verification of the member.
- ❖ First one is the user name, the person has to enter the username and password to go to the home page.
- ❖ There is a login button which let the user hyperlink to the home page.
- ❖ There are also options that if you forgot your id or password you can retrieve it from the website, or if you don't have an account you can create through it.
- ❖ The login option is a button which hyperlink with the homepage and made through html and css.

Home Page

- ❖ This is the main page of the website containing most of the hyperlinked pages.
- ❖ Just entering we can see the welcome side button which displays the offer for today.
- ❖ Just below that we have the today's deal menu which consists of a button hyperlinked to the next page.
- ❖ We have two scroll down select tags which let us select the city and state in which we live.
- ❖ Then there is a box in which there are several items concluding the webpage.
- ❖ We have the home button which lets us to the official home page of the website.
- ❖ Then we have the show restaurant button which is hyperlinked to the list of the restaurant.
- ❖ Then we have the cuisine option which is a hyperlink to the other page which lets us select around the cuisines.
- ❖ There are other options like online order and contacts which are not functional.

Today's Deal

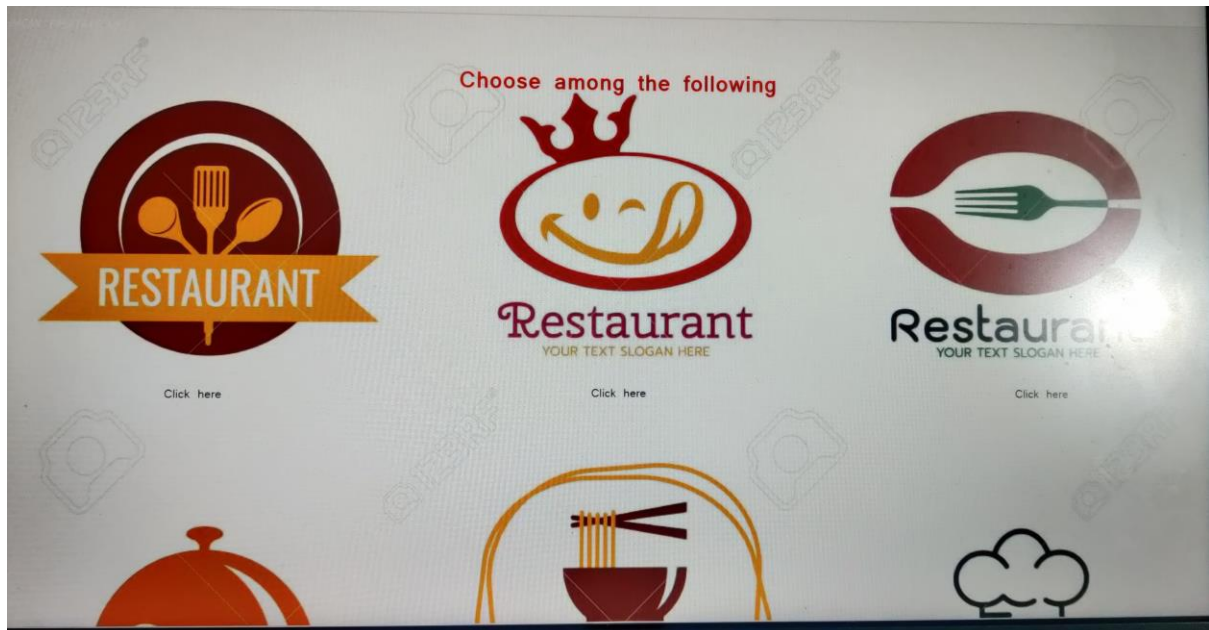

- ❖ This is basically a button which is in the side box column.
- ❖ This is directly hyperlinked to the page which allows to select city around us if available.

City and State

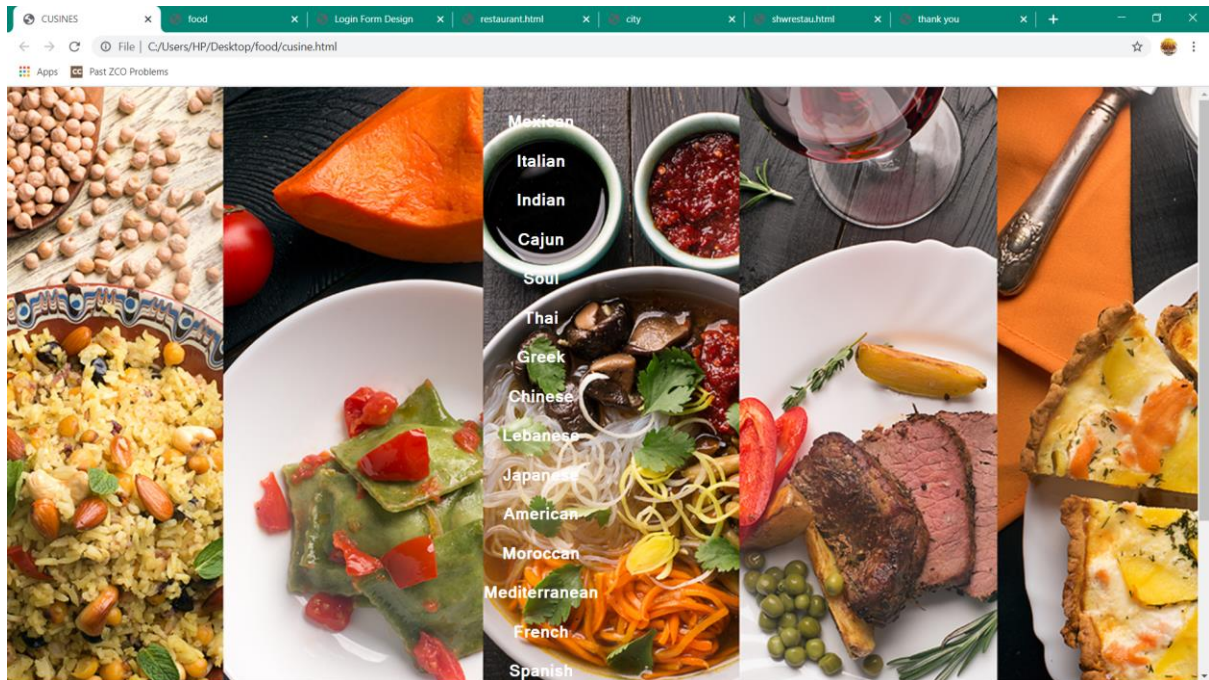

- ❖ This is a select tag scroll down button which lets us select the city and the state we live.
- ❖ It scrolls down and lets us see the various options available in the select list and lets us choose among them.
- ❖ Both are the work of internal and inline CSS.
- ❖ With the help of HTML

Show restaurant

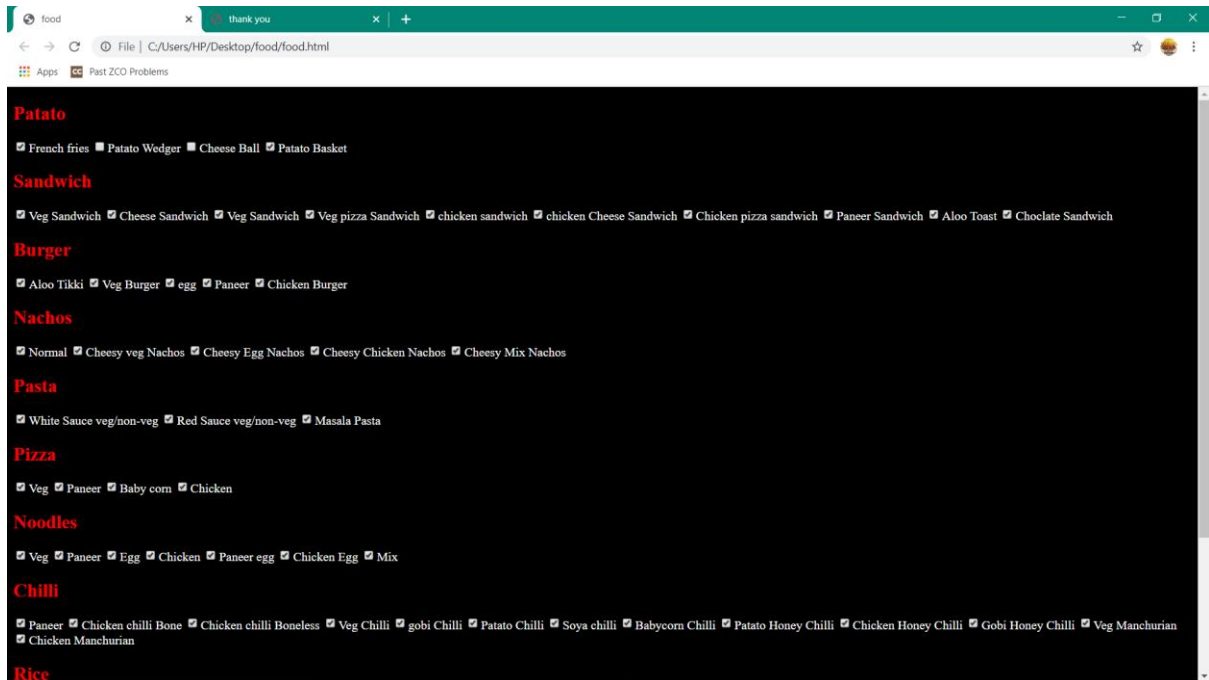

- ❖ This is the page where the user is able to select the restaurant available to him.
- ❖ The page is hyperlinked to two pages first is the home page and second is the menu page.
- ❖ For first page when we click on the show restaurant page the current page will open.
- ❖ After every restaurant there is a "click here" option which is hyperlinked to the menu items. The click here option allows the user to redirect to the menu page which contains food items and values.
- ❖ It is also hyperlinked to the select city page which is the previous one.

Cusines

- ❖ This is the page which allows the user to select among the selected cuisines and it is directly hyperlinked to the home page.
- ❖ There are various types of cuisines which are available in the restaurant provided in our website
- ❖ After selecting the cuisines it will lead us to the selected restaurants which are providing the cuisines. and that will lead us to the city and state option.
- ❖ The page is hyperlinked with two pages, one is the home page and other is the restaurant page.
- ❖ The whole page is made through the help of internal and inline CSS

Food

- ❖ This page allows the user to select the food items they want to select.
- ❖ There are various check boxes which allows the user to select multiple food at a time.
- ❖ The whole page is hyperlinked to the restaurant page which opens after selecting restaurant.
- ❖ The whole page is hyper linked to two pages i.e., show restaurant page and thank you page.
- ❖ There is a direct hyperlink to the thank you page which opens after clicking on the continue button.

Thank you page

- ❖ This is the last page of the website which thanks us for the food we orderd and let us continue to the homepage again.
- ❖ The page is directly hyperlinked to two pages, homepage and the menu page.
- ❖ After clicking on continue here the home page will open and we will be redirected back to the home page.
